Welch Allyn® Connex®
Integrated Wall System

Welch Allyn® Connex® Integrated Wall System

Everything that's vital for comprehensive physical assessment and vital signs documentation—in a single wall-mounted solution.

The integration of vital signs management and physical assessment tools in one system:

- Eliminates those frustrating and time-consuming searches for individual pieces of equipment throughout the facility
- Allows clinicians to immediately view patient data, then send it directly to an EMR/HIS system
- Prevents tools from being lost, stolen or misplaced
- Enhances the visibility of information to your patients and helps improve communication and compliance
- Reduces tangled, hanging cords and provides organized storage for extra blood pressure cuffs
- Provides accurate data every time, speeding decision-making and helps to improve patient safety

Configure your wall system based on your workflow:

Integrated otoscope and ophthalmoscope:
Choose from a variety of 3.5 V options

Adult, pediatric and neonatal NIBP modes featuring SureBP® technology:
15-second NIBP and pulse rate

Choice of Masimo® or Nellcor® pulse oximetry:
Optional Masimo® noninvasive continuous monitoring of Total Hemoglobin

4 USB ports to add:

- Select digital weight scales
- Barcode scanning

Open architecture design allows you to expand your system.

- Supports technology from both Welch Allyn and our manufacturing partners
- Protects your investment and is scalable as your facility needs change
- PartnerConnect™ Service Software-ready for software-driven repairs and upgrades
- For connected facilities, reduces the need for manual transcription and practically eliminates transcription errors
- Reduce time spent on documenting vitals
- View patient data anytime, anywhere on the network, improving patient flow and staff communication

Integrated thermometry and probe cover holder:

SureTemp® Plus oral thermometer and/or Braun ThermoScan® PRO 6000 ear thermometry (choose one or both)

Large, easy-to-read color touchscreen:

- Allows clinicians to show patients their results as they happen for improved communication and patient compliance
- Manual measurements entry (weight, height, respiration rate, pain) and documentation of modifiers like body position and O₂ therapy
- Configure in spot check, office profile (blood pressure averaging), intervals or continuous monitoring modes, including customizable interval programs

Wall-mounted cord/cuff management system:

Reduces tangled, hanging cords and provides organized storage for extra blood pressure cuffs

Hillrom™

Let Hillrom help minimize interruptions to patient care and unexpected costs caused by equipment that is out for repair or maintenance. Our SmartCare™ Protection and Protection+ programs deliver the right mix of services to help you reduce equipment downtime and keep devices in the hands of your caregivers.

- Experience fewer interruptions in care
- Maximize the life of your devices and systems
- Reduce repair costs
- Stay compliant with local and national accreditations

Contact your Hillrom representative for more details on how our proactive services can provide you with peace of mind.

Accessories Covered Under SmartCare Service Programs

- Battery
- USB connectivity cables
- SpO₂ sensors & cables
- Barcode scanner
- Nurse call cable
- ECG module
- Braun ThermoScan® PRO 6000 ear thermometer
- Power cord
- Patient cables
- Temperature probes

SmartCare Service Program Options

Program	Part Number	Program Terms
Protection	S1-CIWS-PRO-PS	3 Years
Protection+	S9-CIWS-PROPLUS-PS	3 Years
